

KING WILLIAM ROAD UPGRADE PARKING INFORMATION

Businesses are open as we transform King William Road and there is lots of parking available within a short 5 minute walk. This map is a guide to show you where you can park when visiting the precinct.

You can continue to use local side streets to access parking and visit King William Road

Many businesses have off-street parking available. Make sure you ask or look for the parking signs (not all off-street parking is represented on this map)

During the upgrade, pedestrian movement along King William Road will be maintained and you will always be able to access businesses

Adelaide Metro bus detours will be in place at different times via Northgate Street to Unley Road and Greenhill Road. For more information please visit www.adelaidemetro.com.au
